Your Information:

Name: _____

Shipping _____

Phone: _____

Address _____

Before ordering you will need to take the following measurements.

1. How many grouser bars are on your pads? _____
2. Distance between your existing grouser bars. _____
3. The height of the grouser bar on your pad. _____
4. The size & shape of your clean out hole (If you do not have one a template will be provided for you). _____
5. The thickness of your pad. _____
6. The distance between your rails. _____
7. How many pads does your machine have on each side? You will need to keep 3 claws on the ground at all times, which usually comes out to one on every 4th or 5th pad. _____

We also have the drawings of each style of claw with all the measurements which can be faxed to you.

Once this form is completed you can fax, email, fill out our onsite form at www.montanatrackclaws.com or simply give us a call.

We will then work to assure your track claws are compatible and can receive payment over the phone. Grousers will be sent out in flat rate priority boxes for fast delivery.

Thank you,

Cheryl Wolleat
